SUMMARY

A results-oriented Software Engineer and Computer Science graduate with a strong foundation in full-stack development. Experienced in translating user requirements into scalable software solutions and collaborating effectively within an Agile team environment to deliver high-quality results. Eager to apply a strong problem-solving mindset to tackle new technical challenges.

WORK EXPERIENCE

Software Engineer (Intern), Ever Medical Technology

Jun 2022 - Aug 2022

- Collaborated within a fast-paced Agile environment, actively participating in daily stand-up meetings to align on project goals and troubleshoot technical challenges.
- Applied newly acquired skills in JavaScript, ReactJS, and NodeJS to develop and maintain key application features.
- Developed a full-stack web application for the healthcare sector, utilizing the MERN stack (MongoDB, Express.js, React, NodeJS) and TypeScript to deliver a complete end-to-end solution.

PROJECT

PEARLS KMITL (Learning Management System)

- Developed a full-stack quiz feature for all classrooms, developing a responsive front-end with NuxtJS and a high-performance back-end API with Golang.
- Translated user needs into detailed technical requirements and software architecture, creating comprehensive design documentation including Use Case, Sequence, and ER diagrams.
- Managed data persistence for quizzes and user submissions by designing and integrating a PostgreSQL database schema.
- Collaborated closely with the development team and stakeholders in regular meetings to define and refine project requirements, align on technical specifications, and ensure the on-time delivery of features.

EDUCATION

Bachelor of Science, Computer Science

Aug 2019 - Nov 2023

King Mongkut's Institute of Technology Ladkrabang (KMITL)

- *Modules:* Data Structure and Algorithms, Computer Organization and Architecture, Operating System, Database System, Data Communication and Network System, Object-Oriented Programming, Human-Computer Interaction, Computer Graphics, Artificial Intelligence, Design Interactive System, Software Engineering
- *Special Problem:* "PEARLS: Learning Management System for the Department of Computer Science, KMITL".

KEY SKILLS

- *Expertise:* Full-Stack Development, Web Development, Software Engineering & Design, Database Design, User Experience Design
- *Programming Language:* JavaScript, TypeScript, Go, Python, Java
- *Library & Framework:* ReactJS, VueJS, NextJS, NuxtJS, SvelteKit, Gin, FastAPI,
- *Database & Development Tool:* MySQL, MongoDB, PostgreSQL, Playwright, Git, Docker, Linux
- *Language:* Thai (Native), English (Professional), Japanese (Beginner)

ACTIVITY & CERTIFICATION

- Teaching Assistant as a member of Academic Team for CS Camp #13 (*Department of Computer Science, KMITL*)
- EF SET Certificate - C1 Advanced (70 / 100) (*EF SET*)
- Tokyo Tech - Asia Young Scientist and Engineer Advanced Study Program (AYSEAS) 2022 (*Tokyo Institute of Technology*)
- GO Software Engineering Bootcamp #2 (*Kasikorn Business Technology Group; KBTG*)
